

# The role of Gender Summit in promoting effective solutions for SDG targets

GS10-Asia Pacific, Tokyo 25-26 May 2017

#### Bibliometric analysis of sustainability research shows that past studies have overlooked the influence of gender on outcomes

https://www.elsevier.com/\_\_data/assets/pdf\_file/0018/119061/SustainabilityScienceReport-Web.pdf

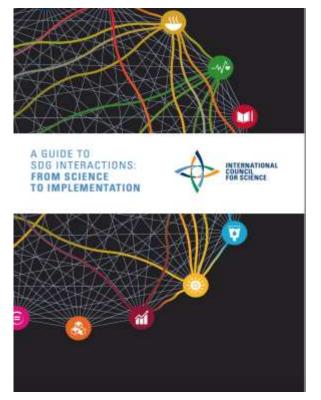

GS10-Asia Pacific, Tokyo 25-26 May 2017

#### Adding gender dimension to the keywords for mapping SDGs-related research is needed to go beyond empowerment issues

## Examining SDGs through the gender lens helps identify influential connections between different targets, beyond SDG5

2017, ICF experts report focuses on interconnections between SDG5 and 2, 3 & 7 but mainly from a gender equality, equity and empowerment perspectives Pac perspectiveific, Tokyo 25-26

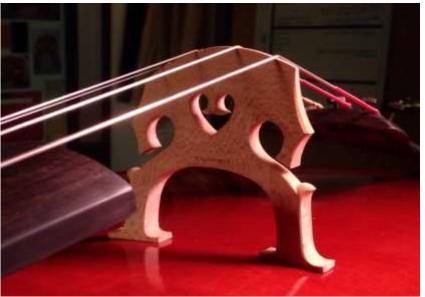

The Role of Gender-based Innovations for the UN Sustainable Development Goals Toward 2030: Better Science and Technology for All Edition 1 Managing Editors: Prof Helsook Lee & Dr Elizabeth Politizer PORTIA

2016, Gender Summit experts have shown that gender issues are relevant to achieving the target of all 17 SDGs

May 2017

Gender Summits can fill-in gaps in knowledge, and intensify gender research to support harmonious implementation of related SDGs

Create new connections between different SDGs, based on scientific evidence of shared gender issues Use gender knowledge to develop solutions that help achieve cross cutting benefits Since 2011, the Gender Summits have created a global community of experts and practitioners, who can advance action on regional SDG targets

### Thank you all for attending GS10 - Asia Pacific

Please sign up to Gender Summit Newsletter at www.gender-summit.com

so we can stay connected,

and work together to achieve lasting change
